FUND OBJECTIVE

The Fund's investment objective is long-term capital appreciation.

INVESTMENT STRATEGY

- The Fund seeks to achieve its investment objective by investing in common stocks of small capitalization companies that the Sub-Advisor believes have underappreciated earnings potential and exhibit reasonable valuations. Although the Fund invests primarily in U.S. companies, it may invest in the securities of foreign issuers listed on U.S. exchanges, including ADRs.
- The Sub-Advisor employs proprietary bottom-up research to identify companies with potential for capital appreciation. The Sub-Advisor seeks to invest in companies that are priced at reasonable valuations in order to attempt to mitigate valuation risk. It generally considers valuations for a company to be reasonable when valuation multiples are near or below historical averages.
- The Fund may take temporary defensive positions when attempting to respond to adverse market, economic, political, or other conditions.

IMPORTANT RISK CONSIDERATIONS:

4073-NLD-1/10/2019

Investing in the Fund carries certain risks. The Fund is non-diversified and may invest a greater percentage of its assets in a particular issue and may own fewer securities than other mutual funds; the Fund is subject to concentration risk. To the extent the Fund invests in the stocks of smaller-sized companies, the Fund may be subject to additional risks, including the risk that earnings and prospects of these companies are more volatile than larger companies. Smaller-sized companies may experience higher failure rates than larger companies and normally have lower trading volume than larger companies. The Fund is a new Fund and has a limited history of operations for investors to evaluate. The Fund invests in the securities of foreign companies which are generally not subject to the same regulatory requirements and have different accounting, auditing and financial reporting standards from those applicable to U.S. companies. Overall stock market risks may also affect the value of the Fund. Factors such as domestic economic growth and market conditions, interest rate levels and political events affect the securities markets. These factors may affect the value of your investment.

Investors should carefully consider the investment objectives, risks, charges and expenses of the AlphaCentric Funds.
