Important Risk Information

Investing in the Fund carries certain risks. The value of the Fund may decrease in response to the activities and financial prospects of an individual security in the Fund's portfolio. The Fund is non-diversified and may invest a greater percentage of its assets in a particular issue and may own fewer securities than other mutual funds; the Fund is subject to concentration risk. Credit risk is the risk that the issuer of a security will not be able to make principal and interest payments when due. The use of derivatives and futures involves risks different from, or possibly greater than, the risk associated with investing directly in securities.

Fixed income securities will fluctuate with changes in interest rates. Lower-quality bonds, known as "high yield" or "junk" bonds, present greater risk than bonds of higher quality. The performance of the Fund may be subject to substantial short-term changes. There are risks associated with the sale and purchase of call and put options. These factors may affect the value of your investment.

Investors should carefully consider the investment objectives, risks, charges and expenses of the AlphaCentric Funds. This and other important information about the Fund is contained in the prospectus, which can be obtained by calling 844-ACFUNDS (844-223-8637) or at www.AlphaCentricFunds.com. The prospectus should be read carefully before investing.
